1. The McLean Field Office, General Services Administration, advises us that the destruction and removal of classified waste material will no longer be done on a nonreimbursable basis and that the Agency will be expected to reimburse GSA for this service in FY 1971 and subsequent years. The cost is estimated at \$24,000 for hauling and dumping [redacted] waste and \$25,000 to reimburse GSA for operating engineers engaged in maintaining equipment located in the extracting room.

2. We request that this be added to the list of unfunded requirements (Office of Logistics) furnished with referent memorandum for your consideration as soon as funds in excess of current TOA's can be allotted.
